THE Colony of Queensland comprises the north-eastern portion of the Continent of Australia—its northern extremity is Cape York, and its southern (on the coast) Point Danger. The one hundred and thirty-eighth of longitude is its boundary on the west.

The area of the Colony is 669,520 square miles, and its seaboard extends 2,250 miles.

The Colony is divided into forty-two Electorates, twenty-nine Districts each returning one member, and thirteen Districts each returning two members. It has eighteen municipalities, and about one hundred and eighteen small towns or townships.

From the returns of the Census of 1876, it appears that, out of the entire population, 70,906 are Australian born (of whom 58,773 were born in the Colony); 36,203 were born in England and Wales, 24,883 in Ireland, 9,374 in Scotland, and 9,889 in Germany.

There were only 864 persons returned as suffering from sickness and accident, being at the low rate of 5 in every 1,000 persons.

The following are the rates of increase during the intervals between each Census:—

1861—1864	...	2·71 years	...	104·48 per cent.
1864—1868	...	4·17 ,,	...	62·53 ,,
1868—1871	...	3·50 ,,	...	20·22 ,,
1871—1876	...	4·66 ,,	...	44·28 ,,

The following information as to the Population of the Colony, is obtained from the results of Census taken on the night of the 1st May, 1876:—

Males	42,117 ...	62,892 ...	... 105,009

The people of Queensland are principally engaged either in pastoral, agricultural, or mining pursuits.

† The Collector of Customs reports under date 28 May, 1879, that the quantity of Gold returned by him as exported in 1877, was 76,838 ozs. in excess of the quantity actually shipped, owing to the Sub-Collectors at some of the Northern Ports having erroneously treated Gold shipped coastwise as exported. The corrected figures read 353,266 ozs., Value £1,307,084; instead of 430,104 ozs., Value, £1,611,103. (*Vide* Statistics—1877, page 72.)

NOTE.—The above Table shows only the quantity and value of the Timber exported as entered at the Customs, but there is reason to believe that the figures are considerably under the truth, as there have been large shipments, especially of cedar, to the Southern Colonies, which have not been reported.

* Previous to the year 1878, the Customs returns only show the Number and Value of Cedar Logs exported, while in the returns for that year the quantity is stated in superficial feet.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes Insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest—the purchase money being nominal.

* Unproductive.

† For detailed return of Wheat Crop, *vide* Table No. CLI.

‡ The growers of sugar-cane having in many instances returned only the quantity of cane sent to the mill, it has been necessary to estimate the yield of sugar in such cases by the average of the other returns from the same district; the consequence is that the quantity of sugar produced as given in the above Table falls considerably below the quantity shown in the Return prepared for Parliament by the Inspector of Distilleries.
